To all my dear followers of King Jesus

## DO YOU CARE?

September has been Suicide Awareness Month including “Are you ok? Day” - an opportunity to ask people about their mental health. October is Breast Cancer Awareness month and includes Mental Health Awareness week. What has this to do with us? There are many people suffering at this time of Covid lockdown stress, in our ecclesial families and communities, with mental health problems, dealing with people they know who have chosen to take their lives in despair and hopelessness, serious illness, loss and grief, loneliness and isolation, . . .

What would you do? To whom would you turn? What would you say to someone going through any of this?

If you're interested to find out more, you can read further at:

## FAITH ON FIRE

What does [Faith on Fire](#) mean? What part does it play in our lives today? What can we learn

[adelphicare.org](http://adelphicare.org)

God-centred caring for everyone

from Faithful people in the Bible, whose faith was on fire?

To learn more from Brenton Loans' exhortation about this, you can read further at:

## PERSONAL STORY

Pat Oosthuizen has contributed a [Personal Story](#) about the Hand of God in her life through her journey with Acute Myeloid Leukemia and the miracles He worked in her life. Given a glimpse of death, followed by the blessing of 30+ years and the hope of life forever. God is good and His mercies endure forever. Read about her story at:
